

Energy Efficiency Pays!

- Contractors receive **\$100 per unit** for installing energy-efficient HVAC equipment—including **boilers and furnaces** in commercial buildings.
- Your customers save money upfront with rebates and into the future with energy savings.

It's easy to save \$\$ on AC units, furnaces, boilers, economizers, and more...

Efficiency Vermont

Energy Efficiency Pays!

Finding the best solutions for HVAC upgrades takes time and expertise. Our sales incentives and customer rebates acknowledge the extra effort to install energy-efficient HVAC equipment.

In 2010, the contractor sales incentive has increased to **\$100 per unit**. We've also **added efficient boilers and furnaces**—giving you more opportunities to earn sales incentives and help your customers save money!

Easy as 1, 2, 3!

It's just three steps to start earning your **\$100 sales incentive per unit** and saving your customers money!

1. Check that the equipment meets the requirements on the **2010 Central Heating & Cooling Rebate Application**.
2. Fill out the Rebate Application.
3. Return your completed form and proofs of purchase to Efficiency Vermont or Burlington Electric Department (BED).

Call Efficiency Vermont at 888-921-5990 for more forms or visit the Business Rebate Center at www.encyciencyvermont.com. For Natural Gas rebates, contact Vermont Gas Systems at 802-863-4511, ext. 321.

NOTE: Incentives and rebates may also be available for custom projects with Efficiency Vermont or BED beyond the scope of the rebate forms.

TIME-SAVING TIP:
Fill out the form online and save it to your computer. You'll be ready to go for your next sale!
