

2010 REBATE APPLICATION

Commercial Refrigeration Equipment

CUSTOM REBATES

Custom rebates may be available for these technologies:

- High-performance polycarbonate film to prevent condensation on glass reach-in cooler and freezer doors without the need for door heaters
- Other refrigeration technologies not listed on this form, such as floating-head pressure controls

Please contact Efficiency Vermont for details.

LED LIGHTING FOR REFRIGERATED CASES

For rebate information on LED case lighting, please see the "Commercial LED Lighting Equipment Rebate Application" form.

WORK WITH EFFICIENCY VERMONT

There may be other opportunities to save money and energy, such as with HVAC and lighting. Please contact Efficiency Vermont's Rebate Coordinator at 888-921-5990, ext. 1003 or info@efficiencyvermont.com.

Efficiency Vermont, the state's energy efficiency utility, helps Vermont businesses and households reduce energy to save money, strengthen the economy, and protect the environment. Include Efficiency Vermont on *your* project team.

Efficiency Vermont provides rebates as an incentive for Vermont businesses to install energy-efficient equipment. To receive your rebate(s), work with your refrigeration contractor to complete these easy steps:

1. Determine your equipment's eligibility.

- Rebates are available for commercial, industrial, agricultural, and institutional customers of electric utilities in Vermont.
- Equipment must be new to qualify for rebates through this program.
- If your refrigeration technology is not listed on this form, please call us to determine whether a custom rebate is available.
- Rebates exceeding \$2,500 require pre-approval from Efficiency Vermont prior to purchase.

2. Complete this application.

- Fill in the worksheet on page 3.
- Calculate your total rebate and enter the amount in the space provided.
- Read and sign the "Terms & Conditions" on page 4.
- Please check to make sure you've provided all information requested. Incomplete information will delay the processing of your application.

3. Return your completed application with your proof(s) of purchase.

- Enclose sales receipt(s) or invoice(s) itemizing your new equipment. The proof of purchase must indicate the date and place of purchase, as well as the size, type, manufacturer, and model or part number of the equipment.
- *All electric utility customers except those in Burlington:* Send this completed application with your receipt(s) to Efficiency Vermont, Rebate Coordinator, 255 S. Champlain St., Burlington, VT 05401.
- *Customers served by the Burlington Electric Department:* Send this completed application with your receipt(s) to Energy Services Area, Burlington Electric Department, 585 Pine St., Burlington, VT 05401.

Efficiency Vermont

888-921-5990 • www.efficiencyvermont.com

DISPLAY CASE STRIP-CURTAIN & CONTINUOUS COVERS

Eligible covers are PVC, metal, or equivalent curtains installed on open, multi-deck (merchandise) coolers. Rebate is based on length (in feet) of case covered.

OUTSIDE AIR ECONOMIZERS FOR COOLERS $\geq 1,000$ cu. ft.

Outdoor air and exhaust dampers must close automatically for summer isolation. Eligible equipment must be capable of using outdoor air of less than 34° F while maintaining the set point of the cooler. Please include the walk-in box volume and dimensions (L x W x H). Walk-in coolers smaller than 1,000 cu. ft. are not eligible for rebates.

EVAPORATOR FAN MOTOR CONTROLS

Evaporator fan control systems must turn off a minimum of four evaporator fans at least 70% of the time the compressor is not running, must reduce the air flow of evaporator fans in walk-in coolers when compressor(s) cycles off while no refrigerant flows through the evaporator, and must control a minimum fan load of 1/20 horsepower when the fan(s) operate continuously at full speed. NOTE: This measure may not result in significant energy savings if the system is undersized or if the evaporator does not use off-cycle or time-off defrost.

DOOR/FRAME HEATER CONTROLS (Humidity-Based)

Eligible humidity-based door/frame (anti-sweat) heater controls limit the operation of door/frame heaters to periods of high relative humidity in the retail space. The set point of the humidity sensor should be at the dew point temperature (slightly above the outdoor temperature of the cooler or freezer door). The rebate applies to each door/frame controlled.

ZERO ENERGY DOORS & FRAMES (Reach-In Type)

Eligible doors/frames are highly insulated, with either double- or triple-pane units and low-E glass coatings or low-conductivity filler gas (e.g., argon). To qualify, door and frame must be completely free of electric resistance heating (i.e., no heaters in door frames). Rebate is based on the number of cooler doors. Custom rebates may be available for zero-energy freezer doors as well; contact Efficiency Vermont for information.

HIGH-EFFICIENCY ECM™ EVAPORATOR FAN MOTORS

Eligible fan motors (only replacement installations for motors <1HP) are brushless DC (ECM) motors.

SCROLL COMPRESSOR(S)

Eligible compressor/condenser systems are scroll-type compressors that replace existing units or are new installations in walk-in cooler systems only. (Units typically replaced are hermetic reciprocating compressors.)

Custom rebates may be available for other compressor types and applications as well (e.g., discus compressors and semi-hermetic compressors in freezers); contact Efficiency Vermont for information.

REACH-IN REFRIGERATORS & FREEZERS (Solid Door/Glass Door)

Specific products eligible for this rebate are listed in the “Products > Commercial Food Service” section of the EPA ENERGY STAR® web site (www.energystar.gov) or contact Efficiency Vermont. Eligible units are high-efficiency, ENERGY STAR commercial reach-in units with solid or glass doors that meet the V2.0 ENERGY STAR specification.

ENERGY STAR ICE MACHINES (Self-Contained Cube Machines Only)

Eligible units produce cubed ice only (no flakes or nuggets) and must meet ENERGY STAR Program Requirements for Ice Machines. This efficiency specification is available at the “Products > Commercial Food Service” section of the ENERGY STAR web site (www.energystar.gov) or contact Efficiency Vermont.

INTELLIGENT DEFROST CONTROLS (On Walk-In Freezer Evaporator Coils Only)

Eligible technologies will use mini-processors to sense temperature and pressure, and monitor the system operation to determine the need for a defrost cycle for the evaporator coil and provide electric defrost only when necessary. (Systems typically replaced are timed-defrost controllers). Eligible technologies must be electric defrost controllers and have third party operational verification testing data. Each controller must control the defrost cycle of three or more evaporator fans.

2010 REBATE APPLICATION • COMMERCIAL REFRIGERATION EQUIPMENT

TOTAL REBATE REQUESTED \$ _____

TERMS & CONDITIONS

REBATE OFFER: This rebate program covers equipment purchased and installed in 2010. Details of this program, including rebate levels, are subject to change without notice.

ELIGIBILITY: Rebates through this program are available to business customers of electric utilities in Vermont. Contact Burlington Electric Department at 802-865-7342 for all Burlington projects.

ELIGIBLE EQUIPMENT: Equipment must be new and installed on medium- and low-temperature refrigeration equipment to qualify for rebates. Review the equipment eligibility requirements on pages 1 and 2 to ensure eligibility before completing this form. Equivalent products must be pre-approved by Efficiency Vermont. Contact Efficiency Vermont for information about additional equipment not listed on this form that may qualify for custom rebates.

PROOF OF PURCHASE: Sales receipt(s) or invoice(s) itemizing the new equipment and indicating the size, type, manufacturer, model, purchase date, and vendor must accompany each rebate application.

PAYMENT: Equipment must be purchased and installed before payment is issued. Falsifying any information may lead to cancellation of this and future rebate applications, a claim by Efficiency Vermont for the return of any rebate, and/or referral for prosecution. Allow 45 days for delivery of payment. Submitting an application with incomplete or missing information will delay check processing and delivery. Efficiency Vermont will not pay more than 100% of the material purchase price shown on the invoice.

APPROVAL & VERIFICATION: Rebates exceeding \$2,500 require pre-approval by Efficiency Vermont before purchase. Efficiency Vermont reserves the right to verify sales transactions and to inspect all installations.

TAX LIABILITY: Efficiency Vermont is not responsible for any tax liability imposed on the customer for rebate payments.

ENDORSEMENT: Efficiency Vermont does not endorse any particular manufacturers, products, or system designs in promoting this program.

DISPOSAL: The customer/contractor is responsible for the proper disposal/recycling, including all associated costs, of any waste generated as a result of this project, including the disposal of refrigerant.

SAFETY & BUILDING CODES: The customer/contractor agrees that each measure complies with all federal, state, and local safety, building, and environmental codes, and that all necessary permits have been obtained. All products must be UL-listed and installed per manufacturer's instructions.

CUSTOMER ASSURANCES: If the facility is leased or managed by customer, customer must obtain written permission from owner to install new equipment.

CONFIDENTIALITY: All customer, vendor, and/or contractor information supplied to Efficiency Vermont will be kept confidential and will not be shared with any person or organization.

DISCLAIMER OF WARRANTIES: Efficiency Vermont does not warrant the performance of any equipment either expressly or implicitly. Contact your supplier or contractor for details regarding equipment warranties.

CAPACITY CREDITS/ENVIRONMENTAL CREDITS: In accepting these financial incentives, the customer agrees that Efficiency Vermont holds the sole rights to any electric system capacity credits and/or environmental credits associated with the energy efficiency measures for which incentives have been received. These credits will be used for the benefit of Vermont ratepayers.

Contact Efficiency Vermont for details on other eligible measures and services, or for answers to any questions you may have about equipment eligibility for this program. Call Efficiency Vermont's Rebate Coordinator toll-free at 888-921-5990, ext. 1003.
